Ravalli County Commissioners

--	--	--	--	--

Dear Commissioners,

I am writing to urge you to **repeal the 1 per 2 emergency interim zoning ordinance**. This is by far the worst land use policy that can be applied. It will devastate the landscape of this county. It also flies in the face of any type of "smart growth" techniques. If the purpose of the one per two was to get the county to enact county wide zoning, the county has embarked on that endeavor. Do not continue to abuse our landscape with a checkerboard of future weed patches!

If you cannot see the folly of this land use policy then at least change the county attorney's erroneous interpretation of minimum lot size to a density standard so that clustered developments can be implemented. If you really do care about wise land use, this is the least you can do.

Thank you,

Paul Wilson
